

# ATTENTION OAK HARBOR RESIDENTS

You may have noticed that work has begun connecting

Oak Harbor to Hancock County (HCUA) water lines. This connection should be completed the 1<sup>st</sup> Week of the New Year.

If you experience cloudy water from your tap, just run the water until it becomes clear, we don't expect any issues in the process.

We would like the phone numbers of all Oak Harbor Residents, and we need your signature on your customer user agreements which will enable PWSD to notify via text message to alert residents with needed information regarding future test or alerts.

In addition, we will be conducting a smoke test, tentatively scheduled for 1/14/2025, depending on weather. This test will help identify possible leaks in the existing Sewer lines.

Please call PWSD office #228-533-0037 with questions regarding Water or Sewer issues you might experience. We look forward to serving you with Quality Water and Sewer services.

To be as transparent as possible to our customers please utilize our PWSD website ([www.PWSD.MS.GOV](http://www.PWSD.MS.GOV)) for information regarding our Policies and our Board meeting minutes. Our PWSD Board meetings are held every 3<sup>rd</sup> Wednesday of the month at 3pm in the Pearlinton Community Center on HWY 604.

JAMES LAMY

PWSD GENERAL MANAGER
